

FUN WITH LOGIC!!! (194)

Mondays, 1:00 – 2:30 p.m. (3 Classes 1/27 – 2/10) in Room 30

Tuition \$30

Walk-in \$12 Pay prior to the class in the Center 4Life Learning office.

Logic is often taught in a way that makes it seem impractical and difficult. Here we teach logic so that its practicality leaps out, which in turn makes its abstractness an easy-to-understand thing of beauty. We start our study with the brilliant thoughts of the ancients (Confucius, Buddha, Socrates, and Aristotle) and then consider the systematic application of logic to modern issues in business, government, and our personal lives. There are no prerequisites, and you don't have to be a math whiz to enjoy and absorb this Miracle-Gro for your brain; come on in, relax, and enjoy!

Robert Silverman performed thirty years of tech support, consulting, and product development at IBM and JP Morgan Chase. He has thirteen patents ranging from the management and security of computer systems to the trading of financial instruments and cryptocurrencies. Before his corporate career he taught logic and philosophy at Rutgers University from 1973-78, and since retiring from corporate life he's been teaching these subjects at Hillsborough Community College.
